- ☒ Other

Types of Operations

- ☒ Underground
- ☐ Surface
- ☒ Loadout
- ☐ Processing
- ☐ Reprocessing

Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

The purpose of this inspection was to conduct a partial inspection of the Willow Creek facility. There were no off-site impacts or compliance issues noted at the time of this inspection. As this was a transition inspection, the undersigned was given a tour and overview of the reclamation activities at the Willow creek site.

Inspector's Signature

Date Friday, February 04, 2005

Joe Helfrich, Environmental Scientist III

Inspector ID Number: 1

Note: This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas and Mining.

REVIEW OF PERMIT, PERFORMANCE STANDARDS PERMIT CONDITION REQUIREMENTS

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
 - a. For COMPLETE inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check Not Applicable.
 - b. For PARTIAL inspections check only the elements evaluated.
2. Document any noncompliance situation by reference the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Divison Orders, and amendments.

22. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

1. Permits, Change, Transfer, Renewal, Sale

The only permit condition which is included within Attachment "A" of the current State permit is the requirement to submit quarterly surface and ground water information in an electronic form to the Division Electronic Data web site. The permittee continues to meet this requirement, as the third quarter 2004 information was uploaded to the EDI on December 13, 2004. Information for the following sites was received; stream monitoring points B151, B3N, B5 and B6. Sites B-25 and B-26 were reported as having no flow.

2. Signs and Markers

Signs with the required information were posted at the points of access to the mine site. Snow depth prevented access to the Crandall canyon reclaimed area.

3. Topsoil

Some minor sloughing on the slope behind the warehouse occurred during a recent quick snow melt. Some hand work to re-establish the gouging and seeding will be required when conditions allow.

18. Support Facilities, Utility Installations

The loadout facility remains on the reclaimed site. It has been sold to an affiliate in Pennsylvania and will be removed sometime this summer.
